

DO NOT ACCEPT **ANY** UNNECESSARY RISK and ensure RISK DECISIONS ARE MADE AT THE APPROPRIATE LEVEL

HAZARD SEVERITY

The expected consequences of an event in terms of degree of injury, property damage or other mission-impairing factors.

SEVERITY

CATASTROPHIC

Death or permanent total disability, system loss, major damage, significant property damage or mission failure.

CRITICAL

Permanent partial disability, temporary total disability in excess of 3 months, major system damage, significant property damage or significant mission degradation.

MARGINAL

Minor injury, lost workday incident, minor system damage, minor property damage or some significant mission degradation.

NEGLIGIBLE

First aid or minor medical treatment, minor system impairment or little/no impact on mission accomplishment.

HAZARD PROBABILITY

RISK MANAGEMENT AT A GLANCE

Risk Management identifies and controls hazards before they become accidents. Risk Management applies to all missions at all times. The following FIVE STEPS are applied:

PROBABILITY

The likelihood an event will occur.

FREQUENT

Occurs often or continuously experienced.

LIKELY

Occurs several times.

OCCASIONAL

Occurs sporadically.

SELDOM

Unlikely, but could occur at some time.

UNLIKELY

Can assume it will not occur.

For more on RISK MANAGEMENT see FM 100-14.

RISK Assessment Matrix

		PROBABILITY				
		Frequent A	Likely B	Occasional C	Seldom D	Unlikely E
SEVERITY	I Catastrophic	Extremely High	High	Moderate	Low	Low
	II Critical	High	Moderate	Low	Low	Low
	III Marginal	Moderate	Low	Low	Low	Low
	IV Negligible	Low	Low	Low	Low	Low
